The interesting byplay of the Victorian coronation was not disclosed until the publication of the Greville Memoirs long afterward, when it came out that neither the Archbishop nor the Duke of Wellington knew his part, and that the girlish Queen's ruby ring was made for the wrong finger, and had to be forced on so painfully that the courtly cried. If anything went wrong in the courtly etiquette or the stately routine of this royal marriage, nobody is yet the wiser of the

DIGNITARIES IN PROCESSION.

There might easily have been mistakes in the courtly order of procedure, for rigid is the etiquette, and complex and delicate is the balance of precedents and dignities. The Queen's progress from the Bow Library to the chapel progress from the Bow Library to the chapel was made in royal state. She was preceded by heralds, ushers. Controller, private secretary, Keeper of the Privy Purse, Groom and Lord in Walting, Garter Kings of Arms, Vice-Chamber, Lin, Lord Steward and Lord Chamberlain, and the was followed by the Master of the House lain, Lord Steward and Lord Chamberlain, and she was followed by the Master of the Horse, the Mistress of the Robes, the Woman of the Bedchamber, the Lady of the Bedchamber, Maids of Honor, Captain of the Yeomen of the Guard, Gold Stick in Waiting, Captain of Gentlemen in Arms, Master of the Household, Master of Buckhounds, Equerries in Waiting, Field Officer in Waiting and Silver Stick in Waiting. Next entered the aridegroom, with his brothers and gentlemen waiting, and finally the bride, with the Prince of Wales, the bridesmaids, and a retinue of ofof Wales, the bridesmaids, and a retinue of of-ficials and attendants. When the religious cere-mony was concluded and the register had been signed there was the united procession of the bride and bridesproom, followed by the re-tirement in detachments of all the dignitaries, royal personages and guests, and their subse-quent concentration in the luncheon rooms and final retreat to Mariborough House. The Lord Chamberlain, the Lord Steward and the Master of the Horse, who were responsible for the archamberlain, the Lord Steward and the Master of the Horse, who were responsible for the arrangements of the wedding, can hardly be said to have had a happy day. The burden of directing so intricate a ceremonial, and of putting every herald, usher, official, attendant and royal or serene highness in the appointed place at the right moment must have been intolerable, the could have proceeded, and or serene highness in the appointed place at the right moment must have been intolerable. Whether the service could have proceeded, and the Prince and Princess have been adequately and properly joined in holy matrimony, if the equeries in waiting had gone wrong or the procedure, more sacred than any wn to the Archbishop of Canterbury rubric known to the Archesished of Canterbury, had been violated, only those versed in the effecte of royal functions would be prepared to assert. Apparently there was no serious misadventure, for the guns were fired, the bells rung and the toasts proposed at the wedding THE PALACE CHAPEL.

## HENRY WHITE ARRIVES.

Henry White, formerly Secretary of the American Legation at the Court of St. James, was a passenger on the White Star liner Germanic, which arrived yasterday afternoon from Liverpool. He was accompanied by his wife and daughter. Mr. White said that the extreme bimetallists in England were enthusiastic over the possibility of Bryan's section. "They think," Mr. White said, "that in tase Americans declare for the silver standard, they

will force other nations to do the same Mr. White said that fortunately the silver people th England were vastly in the minority. "The politically educated on the other side," said he, "are, of course, for sound money, and that class represents the majority." Mr. White will not vote for Bryan. Accompanied by his wife and daughter, Mr. White will go at once to his country place at Newport.

## THE TWO-TAILED TICKET.

A DISASTROUS COMBINATION

From The St Louis Globe-Democrat.

The nomination of Bryan by the Populists, which was expected to be a great help to him, has really placed him in a very embarrassing position, and may prove to be a fatal misfortune.

AN UNHAPPY PAIR.

From The Wilkesbarre Record.

The fact is that Watson always had a supreme contempt for Bryan, as is shown by the speeches the made in Congress when both were members of the House. A more unhappy combination than Bryan and Watson could not possibly have been made by the Populist Convention. Bryan and Swall as a ticket is simply lilogical, but the combination of Bryan and Watson is altogether ridiculous.

SOUTHERN POPULISTS READY TO FIGHT.

From The Nashville American. From The Nashville American.
Everyloody is guessing since the Populist Convention nominated Bryan and Watson, or rather Watson and Bryan, for to the Populists Mr. Watson as the more important character. Predictions are also innumerable, and among them is one to the effect that the seat of war may be changed by the nomination of Mr. Watson from the Middle Western States to the South, especially if Democrats do not yield to the demand to divide electors. The theory is that if Mr. Watson cannot receive united support for Vice-President Mr. Bryan shall be fought in the South, even if a fusion with Republicans is necessary.

HOW WATSON HURTS BRYAN.

From The Denver Republican.

The freer the Bryan ticket is from association with the element which turned down Sewall and is trying to put Watson in his place, the stronger will it be in all places where radical Populism does not prevail.

WATSON'S MISCHIEVOUS PEN.

From The Brooklyn Eagle. One would think that the attacks on Sewall penned by Watson would have the effect of stiffening the backbone of Bryan, so far as the Maine candidate is concerned. But such does not appear to be the case. If he be a Democrat at heart, Bryan must be charmed with Watson's characterization of the Chicago platform as a Populistic one, and if there be any ties of friendship or of confidence between him and Mr. Sewail he must be equally delighted with Watson's diatribe against the Maine shipbuilder. Cornelius Vanderbilt was removed to Newport a few days ago with the hope that the change in air would do him good. Young Mr. Vanderbilt did not accompany his father to Newport, but remained in the house at Fifty-seventh-st and Fifth-ave. On Tuesday he packed up a few things, discharged his valet and removed to the Hotel Savoy. He did not register at the hotel and the management has been instructed to say nothing about his presence there. He has called upon Miss Wilson almost every day for the last week, and has driven through the park with her, It was said yesterday that the marriage of Miss Wilson and Mr. Vanderbilt would take place within a few days, probably to-morrow. None of the details could be learned, however. So far as reported, the marriage will take place at the home of Miss Wilson, and immediately after the ceremony the couple will sail for Europe.

EDWARD O'CONNELL'S PECULIAR WILL The will of Edward O'Connell, which was filed at the Surrogate's office yesterday, was extremely short and peculiarly worded. It was written on the letter-head of a business firm. Aside from the caption it contained only one sentence, which was: "To all persons: Know ye that Edward O'Connell gives all his rights and interest in real estate he now owns in Sheepshead Bay, Long Island, to its mother, Mrs. Johanna Dilworth."

Tony had caught a glimpse of a blue anchor around the back of his neck somewhere, and no matter if the world were coming to an end, he must have another look at that anchor.

Had it been the President of the United States who arrived at Tamaqua, Penn., on Monday he could not have received a more enthusiastic greeting than did the hundred and more little children sent out by the Fresh Air Fund. Not only were the station and all its approaches densely packed, but people were standing on the hills overlooking the town, on housetops and on every conceivable place where they could get a glimpse of the little strangers. As the train drew into the station the children were singing "Marching Through Georgia." This proved to the people of Tamaqua that they had good vigorous voices, and also that they were patriots, even if they did come from the tenements of New-York.

After the excitement of the reception had abated a little, the children were formed in a column of twos and marched under the escort of the Rev. Mr. Hannemann to the German Lutheran Church, the nearest to the Central station. When the children had filled the front seats, the hosts were asked to come in, and all the sightseers were invited to stay outside. The street, which was almost impassable when the children came through, was now completely filled with expectant lookers-on. Many women who had not invited any of the little ones were hoping that they would be called inside to take the places of some who had failed to come after their small visitors, but there were no such cases.

Undoubtedly many will see how coal "grows" for the first time in their Eves.

Ex-Senator Boyd also introduced a resolution to the effect that the women in the club should not accept any pecuniary remuneration for their services for Bryan and Sewall. This resolution did not meet with the approval of the women. The general opinion was that any woman who would take the platform for the candidates was entitled to compensation. It was decided to meet hereafter at No. 18. West Twenty-third-st., and the next meeting will be held on Thursday.

Dr. Jennings who has hitherto been a Republican, appears to be much disconcerted at the manner in which the new organization is being run, and it is believed that she will resign soon. Mr. Barkley was born in Ulster County, N. Y., of Revolutionary stock, on November 18, 1816, and came to New-York City when seventeen years old. Four years later he began the work of carting gold to and from the Sub-Treasury. While thus engaged he sent for his brother John, who was in the country, to visit him. ### MARTINELLI THE MAN.

A BROTHER OF THE LATE CARDINAL TO BE SATOLLI'S SUCCESSOR.

THE POPE'S CHOICE REGARDED AS AN EXCEL-

LENT ONE-MUCH SECRECY CONCERNING THE APPOINTMENT.

London, July 30.-The correspondent in Rome of the United Press telegraphs that, although the report that Monsigner Diomede Falconio would succeed Monsignor Satolli as Papal Delegate to the United States had been hitherto entirely credited at the Vatican, the Pope has appointed as Monsignor Satolli's successor the Rev. Sebastien Martinelli, Prior General of the Augustins Chausses and a brother of the dead Cardinal Martinelli.

The fact that the nomination had been made has been kept secret, even from the most intimate associates of His Holiness, and upon its becoming known occasioned a general feeling of surprise. The Pope's choice is regarded as an excellent one. The Rev. Sebastien Martinelli is about sixty years of age. He is a learned theologian and is thoroughly versed in the for-gign policy of the Vatican.

No confirmation of the report of the appointment of Father Martinelli could be obtained in this city last night. When Father Connelly, secreof Archbishop Corrigan, was seen at tary Cathedral last night, he said that knew nothing regarding the appointment

### PLANNING THE MANOEUVRES.

REAR-ADMIRAL BUNCE ISSUES HIS SQUADROW CIRCULAR LETTER.

Rear-Admiral Francis M. Bunce, Commander-In-Chief of the North Atlantic Squadron, has issued his circular letter governing the movements of his vessels in the coming naval manoeuvres. The Ad-miral lays particular stress on the point of having the ships keep their proper position while manoeuvring, and says: "No officer should be satisfied with anything less than absolute exactness of post-

The various boards organized under the squadrot circular letter of September 22 of last year will be revived, and suggestions as to changes in the man-ner of performing the evolutions, and the organization and disposition of the different elements of the fleet, are asked for. While this is a disappointment to those who expected that an entirely new plan would be outlined, it is generally regarded as being ultimately beneficial to the service, as the errors and faults of the old systems will be more plainly apparent with the large fleet to handle

which will be under the control of the Rear-Admiral.

Part of the programme will be taken up by exercises at general quarters, are quarters, collision drill, both day and night; clearing snip for action, and "man overboard." There will also be subcalibre and torpedo practice at stationary and moving targets, and target practice with main and soondary batteries, swinging snip, boat drills, etc.
